# 2003 DEDICATION

## Dr. Patrick Ober

Few people are as unmistakable as Patrick Ober. Who else in the medical center can be described as an affable, mustachioed Endocrinologist with a penchant for Mark Twain? To the class of 2003, he has been much more. His influence began during our second year. Dr. Ober's lectures were masterfully crafted performances in which he distilled complex concepts of diseases into the essential, while providing countless humorous anecdotes that made the material unforgettable. As third years, Dr. Ober was our Course Director for in-patient Internal Medicine. Despite the notoriously hectic nature of the rotation, he provided teaching unequaled in quantity or quality by any other clerkship. Last year Dr. Ober was named Associate Dean for Medical Education, and we cannot imagine a more deserving person. He has made an immediate impact, listening to students and making necessary curriculum adjustments to ensure continued excellence of the WFUSOM educational experience. For his tireless advocacy of students, incomparable teaching skills, and overall strength of character, the class of 2003 is proud to dedicate this edition of the Gray Matter to Dr. K. Patrick Ober. When asked why he has stayed at this institution for twenty eight years, Dr. Ober always answers, "There are no better people anywhere in the world!" We feel the same about him.

*Always do right.  
This will gratify  
some people and  
astonish the rest.*

- Mark Twain

# ACKNOWLEDGEMENTS

## Academic Computing

The class of 2003 would like to acknowledge the AC staff for their four years of efficient and friendly service. From software upgrades, last-minute power point updates, hard drive crashes, and all the problems with the printer in the back corner of the student lounge, Kevin and his team are always available to serve with a smile. The successful integration of technology into our curriculum is a direct result of the hard work and dedicated service of the AC staff.

## Lynn Snyder

What can't we say about Lynn Snyder – she knows and does it all! The students, staff and faculty would be lost without all of her experience and guidance. Lynn is the one all-knowing source that is there with an open door for the confused and stressed student. Lynn, your graciousness and patience with us made our time at WFUSOM so much more fulfilling and gratifying. Thank you for all your direction and dedication to the students of WFUSOM.

## Medical Education

The class of 2003 would like to acknowledge the Med-Ed E-Floor staff for their hard work and service to the class. Anyone who has the tough job of planning and coordinating the SPA and CPX exams as well as our day-to-day activities deserves much more recognition and reward than we can provide. We won't soon forget the many exams you proctored with the cookies and drinks. Your tolerance of us during these stressful times and efforts to make them run more smoothly are greatly appreciated.

# INTRODUCTION

## *A tribute to the class of 2003*

**1<sup>st</sup> year:** Orientation at the Michael's party (free beer and frightening tales of tests)...Gross lab's distinct smell...the wet vacuum...all must yield to the practice practical guru...Bob boiling human heads on a crock pot in the back room...Dr. Bo's Gestapo sessions, which in retrospect really weren't that scary...DPR, your first patient interview...small groups, the opportunity to meet new and interesting people and argue with them ad nauseum for two hours... "Lotus notes is a cinch to use, really"...Pop-epi, the class the class so nice we got it twice...Did anyone ever go to histology lab other than to check email?...Simon sleeping under one of the carrels with his special pillow and blankie...Dr. Lentz's 10 pound trichobezoar... The sharkbowl: epicenter of gunners and slackers alike...the blonde ambition tour...MAAP instant messenger chat groups that usually degraded into off-color potty humor...who enjoyed examining Leigh during physical exam?... "2<sup>nd</sup> year" status in March—the thrill quickly wore off as we were introduced to the nightmare of neuro quizzes and the marathon that was SPA...which bled into....

**2<sup>nd</sup> year:** Phase IIB, systems pathophysiology, AKA chinese water torture ...The overwhelming presence of pathology with a complete lack of any knowledge whatsoever of "bacteria" or "drugs" ...I don't know what a beta blocker is, but I sure do know all about Bronchiolitis Obliterans Organizing Pneumonia... "Listen Up!"... "during your study of the kidney, you will not see your family, nor will you have the opportunity to micturate, shave, or shower." ... Beginning to stress over Step 1...The white coat ceremony: here's your short white coat so that everyone knows you are dumber than the long white coats; oh don't forget this little inspirational book... Bloody motions... "Foodways": the lecture that introduced us to the socio-economic understanding that first generation immigrants eat ethnic food until discovering McDonalds... still puzzling over what an antibiotic is...Step 1, looming like a ravenous vulture waiting for the carcass...Practice board exams, which we all summarily failed...four weeks in which to cram two years worth of material... Step 1, the longest we've all stared at a computer screen without the benefit of instant messenger chat...Trips to Vegas, the beach, home, or to bed to sleep for a few days....which lightly segued into....

**3<sup>rd</sup> year:** "I'm starting with inpatient medicine, what about you?" "I'm starting with Women's Health".... "Clinical Honors!! However, student has borderline to abysmal knowledge, as shown by performance on written test which the chief of our department failed".... "2".... evening of drinks and food at Fox & Hound, thanks to Dr. Troost – did you see the optic disc?... Patient Tracker.. endless abbreviations - 38yo G2P1A0 w/IUP @ 38 and 2 , with +LOF, SROM, no VB, + FM, appears A&O x4, in NAD, desires VBAC... Inpatient Peds: line up in V-formation, do not touch, or even look at the patients without four levels of superiors at all times; Ignore the 6 reynolds telemetry monitor, it always sounds like half the kids are experiencing pulseless V-Tach... "2"....Drs. Wofford and the medical TV show speech...Palm Pilots... OB two hour notes and mag notes but don't you dare be late to rounds at 0600...Radiology by Mr. Roboto & friends... REMEMBER - the test comes down when? Wednesday at noon... the "Friday afternoon sessions"...Psychiatry - a smorgasbord of delightful psychopathology...remember no consult, no honors... "2".... The Neuro EMG needle torture test; at least you get to beat on people with the hammer - beware the neuro-ophthalmology final...Cardiology red sheet factory...which, thank God, finally turned into...

**4<sup>th</sup> year:** Step 2 - closer to the exit door...everyone is married, is getting married, is getting asked about marriage...people are having kids and realizing that path, radiology, anesthesia, ED, and psych are sweet lifestyles. ....Dr. Smith, considering our research in the field of necrotizing bullous impetigo and its impact on defecography is so important, will you pretty, pretty please write me a glowing letter of recommendation"?....Two AI's, one ICU, and a month full of pseudopregnant fibromyalgia drug addict trauma ED patients...vent settings... preload... "are you in my class, or are you a visiting radiology student attempting to brown nose Dr. Chew? " ...ERAs - aka "Endless Rash Aggravating Students" ... "Did you apply to Hopkins? I did -but they already said I could be chief resident..." Interviews, in which you attempt to convince a perfect stranger that you would fit in perfectly in the Saskatchewan family medicine residency, and that you enjoy smoked polar bear fat...the most difficult rotations in medical school, such as anatomy and cardiac rehab...Winter break is for skiing, not interviews...leading up to match day, in which couples outnumber those matching in internal medicine...why do they make us run to the mailboxes when they know one of us will be trampled to death, so we can practice ACLS? Phase V...yoga and interpretive dances mixes with medical Spanish, ethics, HMO's, and hypokalemia...the longest three weeks leading up to...GRADUATION!!!! we get to wear the green and black robes with the floppy mortarboards!!!!...**Congratulations everyone for making it through and becoming a M.D.!!!**

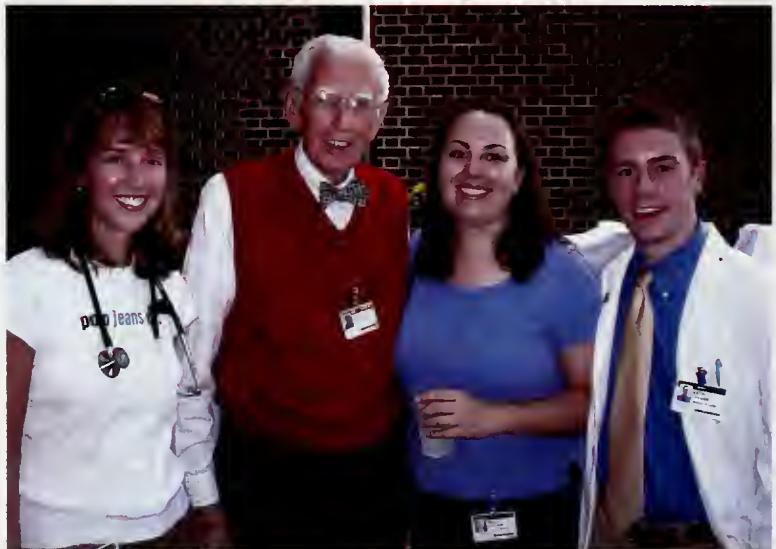

People love to recommend their doctor to you. I don't know what they get out of it, but they really push them on you. "Is he good?" "He's the best.. This guy's the best." There can't be this many "bests." Someone's graduating at the bottom of these classes. Where are these doctors? Is someone somewhere saying to their friend, "You should see my doctor, he's the worst. He's the absolute worse there is. Whatever you've got, it'll be worse after you see him. The man's an absolute butcher."

-Jerry Seinfeld

Three doctors are in a duck blind when a bird flies overhead. The general practitioner looks at it and says, "Looks like a duck, flies like a duck... it's probably a duck," and shoots at it. He misses, the bird flies away.

The next bird flies overhead, and the pathologist looks at it, then looks through the pages of a bird manual, and says, "Hmmm... green wings, yellow bill, quacking sound.. might be a duck." He raises his gun to shoot it, but the bird is long gone.

A third bird flies over. The surgeon raises his gun and shoots almost without looking, brings the bird down, and turns to the pathologist and says, "Go see if that was a duck."

A farmer's wife went into labor in the middle of the night, and the doctor was called out to assist in the delivery. There was no electricity, so the doctor handed the father-to-be a lantern and said, "Here, hold this high so I can see what I'm doing." Soon, a baby boy was brought into the world.

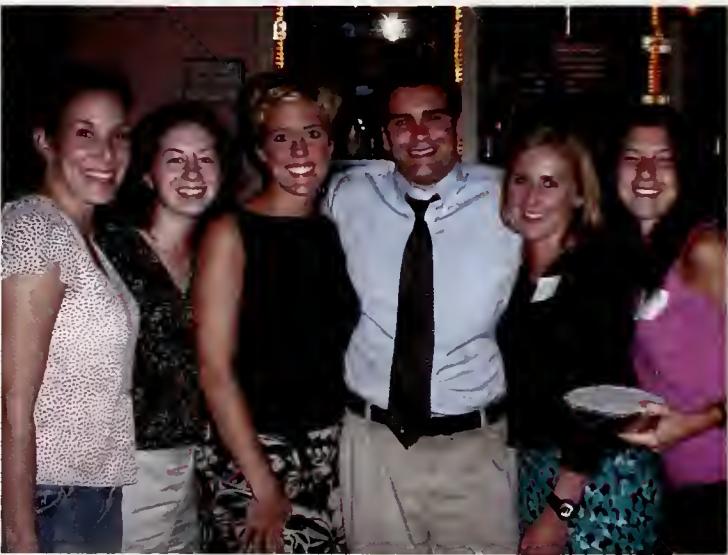

"Don't be in a rush to put the lantern down," said the doctor. "I think there's another one to come."

Sure enough, within minutes she had delivered a baby girl. "Keep holding that lantern," she said. "It seems there's yet another one in there!"

The farmer scratched his head in bewilderment and asked, "Do you think it's the light that's attractin' 'em?"

Doctors are  
whippersnappers in  
ironed white coats, who  
spy up your rectum and  
look down your throats,  
and press you and poke  
you with sterilized tools,  
and stab at solutions that  
pacify fools. I used to  
revere them and do what  
they said till I learned  
what they learned on  
was already dead.

-Gilda Radner

# **AWARD FOR TEACHING EXCELLENCE**

Awarded by the Academic Faculty, Medical School Administration, and Student

---

## **Dr. K. Patrick Ober**

What more can we say? Dr. Ober demonstrates day after day the essence of the complete physician; an excellent, caring clinician, as well as a mentor and role model to medical students and residents. Despite his numerous clinical and administrative responsibilities, he is always willing to make time to help others learn. For this, he is most deserving of this year's Award for Teaching Excellence.

# **CHARLES B. CLARK MEMORIAL AWARD**

For Outstanding Service to the Senior Class

---

## **Dennis Boyles**

From the beginning of first year, when many of us had little to no knowledge of computers, networks, and lotus notes, through our trials and tribulations of using palm pilots and patient tracker, Dennis has been willing to "go the extra mile" to ensure students' academic computing needs were met. He is always willing to drop whatever he is working on to help with a computer crisis, and has become a great friend to many of us. We will all miss his friendly face and his expertise next year. We wish to honor him with this award as a small token of our appreciation for his help over the past four years.

## POST BOARDS PARTY

*June 7, 2002*

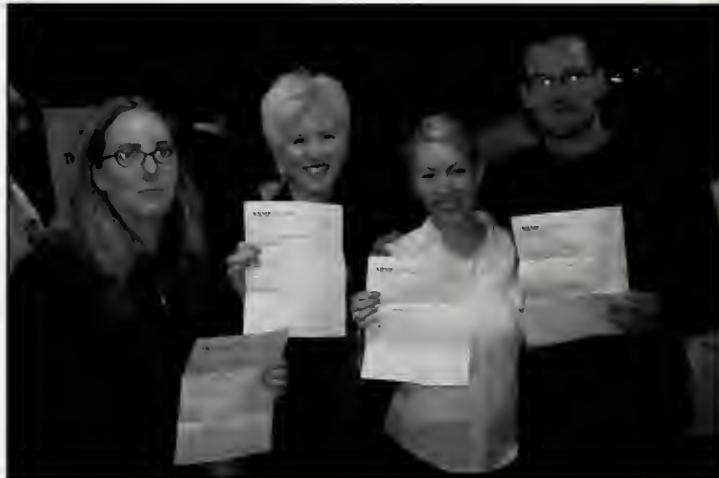

The celebration was held on June 7, 2002, at the Forsyth Country Club. Members of the class of 2003 were treated to an evening of dinner, drinks, music & dancing. While not all of us could celebrate completing Step 2, we all celebrated the end of third year and the beginning of fourth year! Thanks to the Medical Alumni Association for sponsoring this great event!

## MATCH DAY

*March 20, 2003*

Festivities abounded throughout the “big day,” starting off with a brunch hosted by Meredith Givens, followed by the infamous envelope opening at the mailboxes, a lunch party at Bridger Field house, and finally a school-wide celebration at the Sawtooth Center that evening. Match Day 2003 was the culmination of many years of hard work by the Class of 2003.  
Congratulations, everybody!

*"To laugh often and much; to win the respect of intelligent people and the affection of children; to earn the appreciation of honest critics and endure the betrayal of false friends; to appreciate beauty; to find the best in others; to leave the world a little better, whether by a healthy child, a garden patch or a redeemed social condition; to know even one life has breathed easier because you have lived. #### Selected Laws from The House of God:

- I Gomers don't die
- II Gomers go to ground
- IV The patient is the one with the disease
- VI There is no body cavity that cannot be reached by a #14 needle and a good strong arm
- VII Age + BUN = Lasix dose
- XII If the Radiology Resident and the BMS (Medical Student from Best Medical School) both see a lesion on the chest x-ray, there can be no lesion there.

- from *House of God* by Samuel Shen

A man walks into a doctor's office. He has a cucumber up his nose, a carrot in his left ear, & a banana in his right ear.

"What's the matter with me?" he asks the doctor.

The doctor replies,  
"You're not eating properly."

No!No!No!

This can't be happening.  
I haven't had so much as a  
nap in the past 24 hours.  
Rounds are about to start. I  
need to take a shower, I  
smell bad, and you're giving  
me a patient that's  
as sick as a dog.

What does that say??!  
What does that say??! 6:38 -  
I'm not on call.

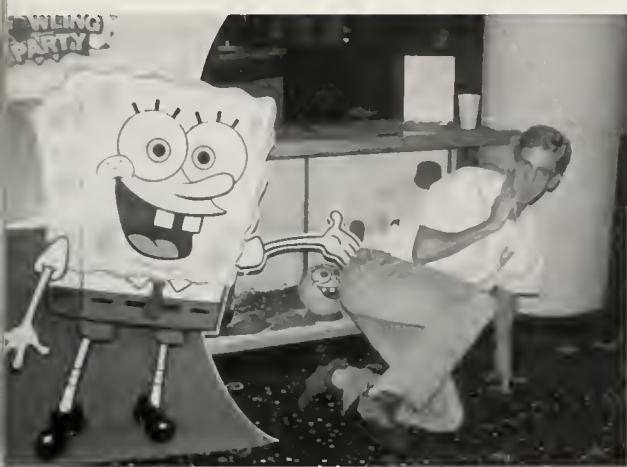

-Dr. Elizabeth Corday, ER

A doctor hired a new secretary who was industrious, but not too bright. While typing out the doctor's notes taken during an emergency, she became puzzled. "Shot in the lumbar region," the notes read. After some thought, the secretary attempted to clarify what she perceived to be the doctor's muddled words. "Shot in the woods," she typed.

You know you spent too much time in the hospital when you've thought of the ULTIMATE cruel practical joke: get someone drunk, then bring them to the emergency room and announce that they overdosed on "some sort of pills" just prior to arrival...

Sighs the OR Case  
has been going on way  
*too long*:

- 1) You figure out how to reprogram the EKG monitor and have now set a new world record score for Pong.
- 2) Using discarded glove wrappers & saline bottles, you've created a mixed media replica of the Eiffel Tower.
- 3) You vow to smash the stereo with a traction weight if you have to listen to the attending's favorite CD one more time.
- 4) Suddenly, anesthesia's jokes are actually funny.
- 5) The Papa John's delivery man shows up in scrubs with 2 large pepperoni pizzas.

During a young doctor's first week of practice in a rural area, there came a knock on his door about 4:30am. The doctor rushed to the door and found a farmer standing on his porch. "My wife's in the truck," the farmer said. Fearing some calamity, the doctor hurried after the farmer, only to find a chipper young woman sitting in the cab. When the doctor asked what the problem was, the woman looked surprised. "Well," she said, "you told me to come in for a blood test before breakfast."

It's Dr. Evil. I  
didn't spend six  
years in Evil  
Medical School to  
be called "mister,"  
thank you very  
much.

- Austin Powers:  
International Man of  
Mystery

An old man visits his doctor and tells him,  
"Doc, I need my sex drive lowered."

The doctor, incredulous, says,  
"What? You want your sex drive lowered?"

The old man replied,  
"It's all in my head. I need it lowered."

A man's health can be  
judged by which he  
takes two at a time -  
pills or stairs.

### THE Doctor's RIDDLE

Does a doctor doctor a doctor according to the doctored doctor's doctrine of doctoring, or does the doctor doing the doctoring doctor the other doctor according to his own doctoring doctrine?

*A bodily disease which we look upon as whole and entire within itself, may, after all, be but a symptom of some ailment in the spiritual part.*

*- Nathaniel Hawthorne*

NEMA: a person considered unfriendly, mean-spirited, and sometimes dangerous

ORGANIC: church musician

RECTUM: to have destroyed objects such as cars by accident or collision

RHEUMATIC: pertaining to or characteristic of enthusiastic or amorous feelings for another

ALINE: The sport of operating or navigating a marine vessel

TRIPLE BYPASS: better than a quarterback sneak  
~ *The Layman's Glossary of Medical Terms*

PLASTER CAST: the drunk roadies  
backstage at a rock concert

STERILE SOLUTION: not using the  
elevator during a fire

SECRETION: An object or utterance  
concealed from knowledge or view

TABLET: a small article of furniture  
supported by legs and having a  
horizontal surface

~ *The Layman's Glossary of  
Medical Terms*

I was going to have cosmetic surgery until I noticed that the doctor's office was full of portraits by Picasso.

*Hunter "Patch" Adams:*  
"You treat a disease, you  
win, you lose. You treat a  
person, I'll guarantee you'll  
win."

- Patch Adams

*Overheard in a chic restaurant:*

"I'll have the oysters on the  
half shell for my cardiovascular  
system, the cabernet  
sauvignon for my cholesterol,  
and the french fries for my  
inner child."

*Doctor.* "Nurse,  
how is the  
little boy who  
swallowed  
those quarters  
doing?"

*Nurse:* "No  
change yet."

BANDAGES: The Rolling Stones  
COLIC: a sheepdog  
COMA: a prevalent punctuation mark used to indicate pauses

CONGENITAL: a friendly demeanor

DIALATE: to live a long life

- *The Layman's Glossary of Medical Terms*

*Formerly, when religion was strong and science weak, men mistook magic for medicine; now, when science is strong and religion weak, men mistake medicine for magic.*

- Thomas Szasz

*Always laugh  
when you  
can. It is  
cheap  
medicine.*

*- LORD BYRON*

"I told the doctor I broke my leg in two places. He told me to quit going to those places."

- Henny Youngman

In Honor of Matt Haynie  
March 18, 1973 - January 29, 2003

*Your kind heart and sweet manner always made us smile. Your hard work and dedication to the health care profession made you successful while touching the lives of many. You were a true friend and a man of great honor, integrity and honesty. Though you may not be with us in person, your spirit will forever live in our hearts.*

## CENTENNIAL GALA

*October 11, 2002*

The Centennial Gala was held at the Adams Mark on October 11th, 2002, to celebrate 100 years of medicine at Wake Forest University. The gala followed a week of centennial activities, including the dedication and unveiling of a lifesized statue of Bowman Gray Senior. The statue was sculpted by Earline Heath King (top right photo). The evening consisted of remarks by Dr. Bill Applegate, Dr. Dick Dean, and Dr. Thomas Hearn, followed by an awards presentation. This year's recipients include Dr. Scott Obenshain '62 (Distinguished Achievement Award), Dr. Neill Musselwhite '75 (Distinguished Service Award), and Dr. Brenda Latham-Sadler '82 (Distinguished Faculty Service Award). The presentations were concluded with musical entertainment by the Say Ah's and the Ultrasounds. Over 100 students were in attendance, and a good time was had by all!

## HALLOWEEN PARTY

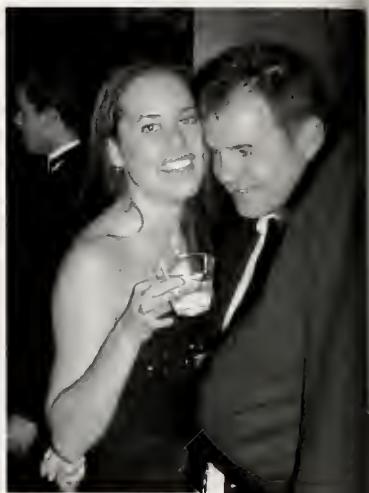

*October 31, 2002*

The 2002 version of the Medical School Halloween party was held at Burke Street. Most students arrived in costume, grabbed a wrist band, then joined in the fun of playing darts, dancing, and just hanging out. Costumes ranged from Cruella DeVil to Harry Potter to Superwoman to beach bums to a butterfly.

## HOLIDAY CHARITY BALL

*December 7, 2002*

## PARENTS WEEKEND

*February 7-8, 2003*

The 2003 Parents Weekend, themed "The Celebration of the Century", started off with a dessert reception at the Old Town Country Club. The next morning, Drs. Applegate, Ernest, and Ober spoke to students and over 370 parents. The presentation also included slide shows from each class as well as a skit performed by students. The art show displayed over sixty pieces of art created by our students, which included, amongst others, photographs by Dan Meigs, Matthew Belford and Amy Derrow, and paintings by Kent Broberg and Susan Watkins. The weekend ended with a Talent Show at Brendle Recital Hall, which showcased talents ranging from vocals, instrumentals, dance and baton twirling. Thanks to the Medical Alumni Association and the Parents Weekend Committee for sponsoring this celebration.

## PRECLINICAL STUDIES

*First & Second years*

### Top 5 little known facts about Dr. Bo (as seen on class of 2006 t-shirt)

- 1) Moonlights as spokesman for Prince Albert tobacco
- 2) Knows more stories about anatomy than Aesop does fables, but never tires of hearing you tell him new ones.
- 3) Living proof that formaldehyde, not Palmolive, will keep your hands softer as you work.
- 4) If it is worth going to class, it is worth being on time...or else.
- 5) "Come on, time to take a walk with me..."

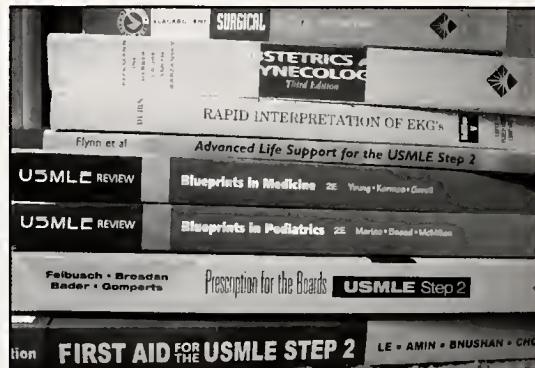

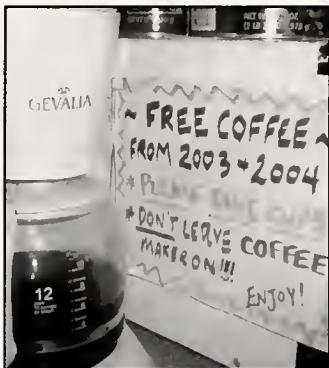

orientation... big sibs... gross anatomy... E24... small group... MAAP... POP-EPI... interest group free lunch... DPR... SPA... foosball... biochem... systems pathophys... weekly quizzes... summer off... more weekly quizzes... boards Step 1...

**You know you're a 1st year when...**

- 1) You think a SPA is a place you go for a relaxing resort vacation.
- 2) Fourth years seem big... and scary...
- 3) Studying really late at night, you start to think that maybe you really are just a little fish, swimming in your fishbowl.
- 4) You never leave home without Netter and a pair of disposable gloves.
- 5) You feel nostalgia for elementary school while passing electronic notes on IM.

## CLINICAL ROTATIONS

### *Third and Fourth years*

#### Top signs that you're a 4th year:

- 1) There are never any parking spaces left when you arrive in the morning.
- 2) The sole reason you wear your beeper is just in case your tee-time changes from noon to 1pm.
- 3) You're married, getting married, thinking about getting married, or wondering why you're still single.
- 4) You regularly attend every function on the "weekly social calendar."
- 5) Getting out at 4pm feels really late.
- 6) You claim a library reference computer as your own, in order to check your email q3 minutes for interview offers
- 7) First Street has replaced the deli as your regular lunch hangout.

... passed Step 1... Palm pilots... red sheets... outpatient... DHP... inpatient... bat cave... trauma call... gen med... anesthesia... sim lab - SAM... radiology week ... passing Step 2... moving on to AI's, ED, ICU.... then anatomy, cards rehab, radiology, vacation... making decisions... going abroad... away rotations... applying for residency... interviewing... matching... partying & saying goodbye in phase V...

### graduation!!!

#### Top reasons why 3rd year OB is a great rotation (from the walls of the doghouse)

- 1) Easy parking at 0500
- 2) Daily opportunity for contact with a tidal wave of bodily fluids
- 3) Se habla espanol?
- 4) Smurf boots
- 5) 80's nostalgia from Cerner
- 6) Four words -

## CRAIG NELSON

*Craig Nelson M.D.*

I would like to be a Doctor.  
I could take out Hearts,  
remove gallbladders, deliver babies,  
I could go to all sorts of places.  
I would have a beeper. I  
would get to see a lot of  
guts. the end

Dear Craig,

**Congratulations!!**

You did it with caring and compassion, with grit and guts, and with hard work and humor, and we are so very proud of you! You are a wonderful son, brother, grandson, and husband. We thank Carolyn for being your support and partner during this four-year journey.

Along with your many achievements we are glad to see that your spelling has improved. (We'll discuss the handwriting later). We suspect that, as a pathologist, you will achieve your childhood dream and get to see a lot of guts. We wish you, Carolyn, and the class of 2003 all the best!

**With lots of love,  
Mom and Dad**

*I want to be thoroughly used  
up when I die.  
Life is no brief candle to me;  
it is a sort of splendid torch  
which I get ahold  
of for the moment and  
I want to make it burn  
as brightly as possible before  
handing it on to  
future generations.*

- George Bernard Shaw

# BETSY SALSBUY MERRELL

**Congratulations,  
Nat!**

I am so proud of you. Your hard work & dedication paid off.

Continue to follow your dreams & your heart.

Love, Mom, Sophia & Andre

I'm so excited I can barely sit still or hold a thought in my head. I think it's the excitement only a free man can feel... a free man at the start of a long journey whose conclusion is uncertain.

I hope I can make it across the border. I hope to see my friend and shake his hand.

I hope the Pacific is as blue as it has been in my dreams.

I hope...

Congratulations, Edward!  
We love you and are so proud of you.

Mom, Dad, and Daniel

A physician is not angry at the intemperance of a mad patient, nor does he take it ill to be railed at by a man in a fever. Just so should a wise man treat all mankind, as a physician treats a patient, and look upon them only as sick and extravagant.

- Seneca

Be Faithful - And Leave The Results To GOD.

Always, A Big Hug & A Kiss! Love, Mom, Dad, Jereme & Chance

...to laugh often and  
much; to win the  
respect of intelligent  
people and the  
affection of children;

to earn the  
appreciation of  
honest critics and  
endure the betrayal  
of false friends;

to appreciate beauty,  
to find the best in  
others; to leave the  
world a little better;

whether by a healthy  
child, a garden patch  
or a redeemed social  
condition;

to know even one  
life has breathed  
easier because you  
have lived.

This is the meaning  
of success.

But it is, perhaps, the end of the beginning."

Winston Churchill

I find the great thing in this world is not so much where we stand, but in what direction we are moving; to reach the port of heaven, we must sail sometimes with the wind and sometimes against it - but we must sail, and not drift or lie at anchor

CONGRATULATIONS TO OUR NEWEST ALUMNI  
THE CLASS OF 2003!

THE MEDICAL ALUMNI ASSOCIATION OF  
WAKE FOREST UNIVERSITY SCHOOL OF MEDICINE

# *Colophon*

*We would like to extend our thanks  
to the following people:*

**Charlie McLaughlin:** For stepping in as our unofficial "Senior Page Production Editor" when we were buried deep in piles of pictures to scan and pages to put together. We could not have met our deadline without your willing, diligent help and completion of many senior pages.

**Academic Computing:** For generously donating spare computers for our mega-sized files, and for all of your help with last minute technical difficulties.

**Office of Student Affairs:** Especially Lynn Snyder for her advice and support.

**Biomedical Communications:** In particular, Lou Davis, Linda Arcure, and Tom Arcure for developing CDs of portraits, and providing us with numerous options from which to choose our cover photo.

To the other members of the Class of 2003 who helped during various stages of planning, organizing, and providing feedback regarding the yearbook, especially Keith Pochick, Shirley Domingo, Anna Ibele, and Georgia Haynes.

**Kelly Jacobus and KerryAnn O'Connor:** Thanks for providing photos from the PA Student program and Graduate Students, respectively.

**Kaye Miller:** Thank you for your patience and dedication, and for being available for us at all times when we had last minute questions or concerns.

**Our friends and family:** For listening when things went wrong, deadlines were near, and for bearing with us throughout the creation of the 2003 *Gray Matter*.

*- Lisa Kim-Shapiro & Tracy Manuck*  
Editors of the 2003 *Gray Matter*

The *Gray Matter*, Volume 59, was produced by the yearbook staff at Wake Forest University School of Medicine in Winston-Salem, North Carolina, and was printed by Herff Jones, Inc. in Charlotte, North Carolina. The account was serviced by representative Kaye Miller and customer service adviser Carolyn Parker.

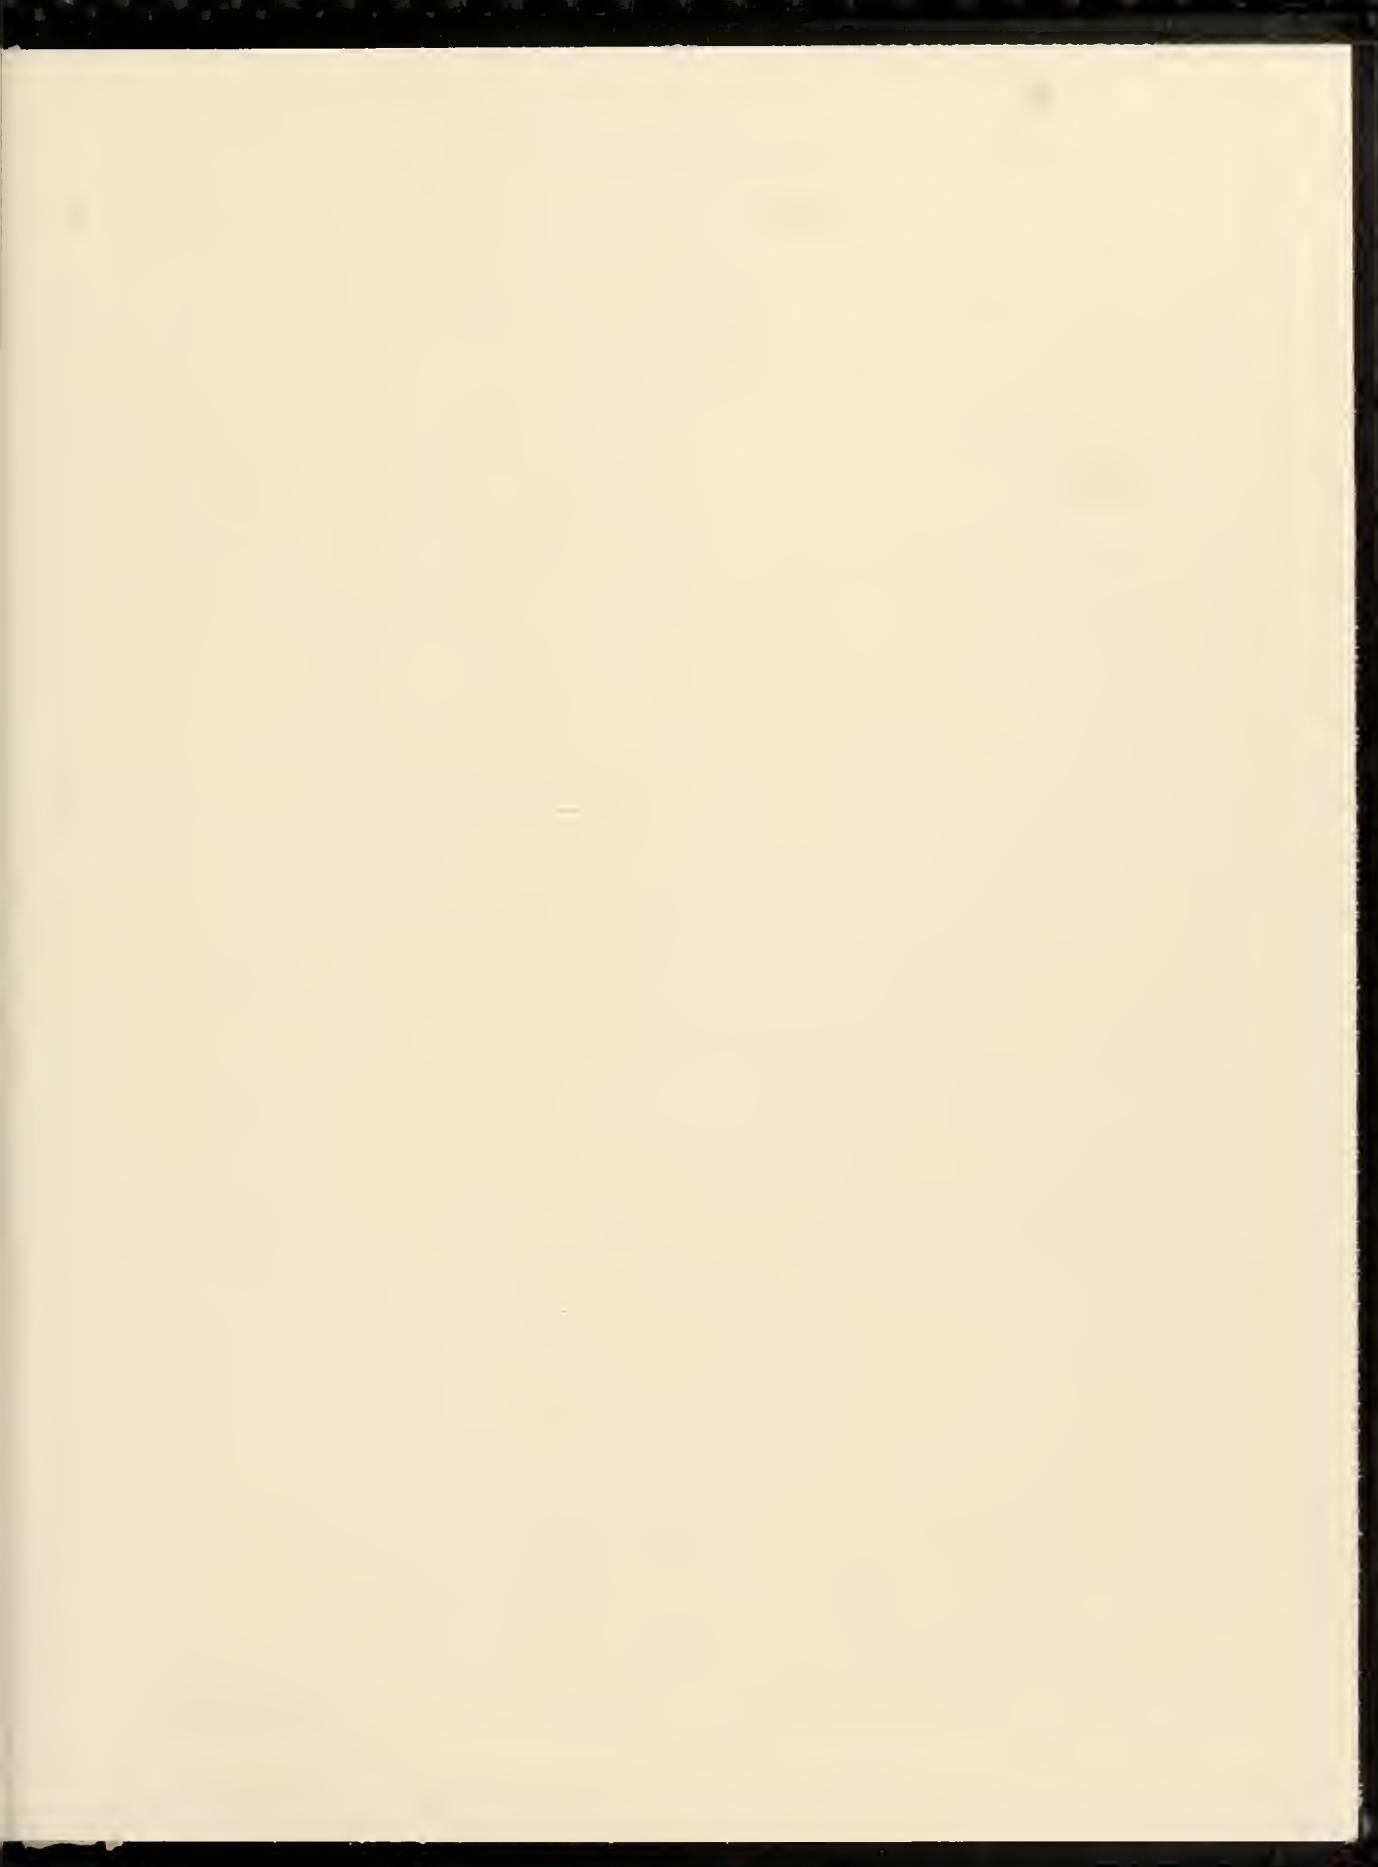

**Cover:** The cover was designed with the assistance of the graphic arts department of Herff Jones. The cover photograph was tipped onto Matte Black Vibra Tex. Silver foil was applied to embossed lettering. The endsheets are printed on 80-lb gray colortext paper using black ink.

**Production:** The book's 240 pages are printed on eighty-pound Bordeaux. The 2003 volume includes 32 pages in full color. The *Gray Matter* was produced using PageMaker 6.5. All photographs were digital or digitized to a resolution of 300 dpi. Garamond was used as the primary text font throughout the yearbook. Layouts were submitted to the plant on CD and proofed on ZIP disk.

**Photography:** All portraits and the cover photograph were taken by the Department of Biomedical Communications. Individual members from the Classes of 2003, 2004, 2005 and 2006, Physician Assistant Program, and Graduate Studies Program provided candid photographs.

**Advisers:** Patricia Adams, M.D.  
Lynn Snyder
